NuTone doorbells offer a wide selection to complement your style.

NuTone is the right choice in chimes and pushbuttons – from contemporary to traditional styles, musical, portable doorbells or wireless – the choice is yours.

Innovation

As the inventor of the modern doorbell, NuTone has a tradition of innovation and quality that dates back to 1936. NuTone continually researches and develops new products with the consumer in mind.

Smart Video Doorbell

See and speak to visitors from anywhere in the world. Receive notifications when someone is at your door, whether they ring or not.

MP3 Customizable Doorbell

Program your doorbell's chime to play any song or sound, such as seasonal music and holiday songs or sounds to support your favorite sports teams.

NEW Kinetic Technology

Utilize kinetic energy with a pushbutton that creates its own power and transmits a signal wirelessly to the receiver chime. No batteries or wires required!

Wireless Models

Extended Operating Range

High Quality Digital Audio

Volume Control

Doorbell Kits with EZ Install Transformer

Not all transformers are equal. In fact, our transformers feature an easy-to-install lock-mount or wall-mount that can reduce installation time by 25%.

Hearing Impaired Strobe Light

The built-in strobe light is ideal for hearing impaired or noisy environments.

Transformer with Built-In Thermal Cut Off

Designed to shut off the doorbell system in the event of excessive temperature.

NUTONE KNOCK™ SMART VIDEO DOORBELL CAMERA

DCAM100

Visibility and Security – whether you're home or away

No more wondering "Who's there?" No more guessing if the children arrived home safely from school, or whether the mailman delivered your package. NuTone Knock lets you know when someone is at your door. The motion-sensing camera works day or night, so you never miss another visitor. You can even speak to anyone who rings the doorbell from anywhere in the world – with your smart phone or tablet. The Do Not Disturb feature lets you set quiet hours for family time, movie time or naptime.

Ideal for challenging weather conditions, NuTone Knock can handle the sweltering heat of the desert or the extreme cold of the upper Midwest. With an IP65 weatherproof rating to protect against dust and water, it is more dependable than other leading brands. NuTone Knock works with a home's existing doorbell wiring and installs in minutes.

Dimensions:
5.5"h x 1.9"w x 1"d

Reliable Security

- Weatherproof to protect against dust and water.
- Rated for temperatures as low as -22°F and as high as 122°F.
- More dependable in extreme weather than the other leading brands.

See and Speak to Visitors

- See your entire entry area with the 180° view 720p HD camera.
- Night vision camera for low light conditions.
- Speak to visitors with two-way audio.

Motion Detection

- Receive alerts when someone approaches the door.
- Block out high traffic areas to reduce false motion alerts.
- Heat sensor prevents nuisance motion triggering from leaves and debris.

Do Not Disturb

- Set quiet hours to turn off the chime.
- Make sure visitors do not disturb the baby's nap, family time or movie night.

Keep a Record of Visitors

- Record video or take snapshots on demand.
- Automatically saves a snapshot whenever the doorbell button is pressed.
- Automatically saves video to the cloud whenever motion is detected or the button is pressed.*

Installs in Minutes

- Feedback from the doorbell guides you through the installation process, no need to find or replace the transformer.
- NuTone Knock will tell you if the transformer voltage is too low.
- Connects to existing doorbell wiring.
- Compatible with all NuTone mechanical, wired door chimes and LA227WH Wi-Fi Chime.

ALSO AVAILABLE:

Wi-Fi Chime – LA227WH

- Plug into any outlet to hear your NuTone Knock chime throughout your home.
- Includes 16 pre-loaded chime melodies.
- Makes installation even easier.

Optional Flush Mount – DCAM100FM

- An even sleeker profile allows for seamless integration into your home design.
- All of the same great features as the DCAM100.
 - Rough-in box DCAM100RB is required for installation (sold separately)

* Requires cloud storage service charge of \$2-\$4 based on selected subscription plan

NUTONE® MP3 AND WIRELESS DOORBELL

LA600WH

Easily upload MP3 files to truly customize your doorbell's notifications with your favorite sound or song. The doorbell's chime can be hard-wired to a transformer or wireless with 3 "D" batteries. 128MB memory allows for storage of up to 40 songs or sounds, offering a variety of notification options to fit any time of the year.

MP3 Customizable

Now you can program your doorbell to play any song or sound, such as seasonal music and holiday songs or sounds to support your favorite sports teams.

Uses a 16-volt transformer.

Dimensions: 6" w x 9 1/2" h x 2 1/4" d

PAINT

VOLUME CONTROL

- **Wired or wireless installation** options make this an easy install for your home; installs in less than 15 minutes in most applications.
- **Audio controls** allow you to select the volume desired and a 5, 10 or 20-second or full song operation time to create the perfect chime without the need for additional software.
- **High quality digital audio** provides clear, crisp sound that will ring throughout the entire home.
- **128MB of memory** provides space for you to upload up to 40 songs or sounds, allowing you to store a variety of sounds for the whole year.
- **Includes 8 pre-loaded door notifications** such as Westminster, 2-note and single-note sounds so you can select just the right greeting.
- **Operates with most NuTone® wired pushbuttons** and the PB78LWHCL wireless pushbutton so you can create the chime set-up that works for your lifestyle.
- **Molded plastic cover** is paintable to blend perfectly in whatever room you mount it in.

TRADITIONAL MUSICAL

LA70MA*

BK147LWH	Recessed	-	1	-	-

The **BK105** is a chime only kit. All other builder kits include a C905 transformer.

BUILDER KITS – JUNCTION BOX TRANSFORMER

Now, rather than mounting the transformer in a remote location and running wires to various points, NuTone® puts everything in one package. With our patented system, just run the wire, connect and drop the entire transformer in the junction box. Two simple low voltage connections later and the chime is running. NuTone ends the back and forth, up and down runaround by keeping everything conveniently packaged in one location. Choose a kit with one or two standard buttons, or one stucco button.

Step One:

Install a junction box where the chime is to be installed.

Step Two:

Wire the transformer as you would any common receptacle.

Step Three:

Drop the transformer in and attach to the junction box. Connect low voltage wires to the chime and mount it directly to the transformer. The transformer works in any standard, single-gang junction box.

Model#	Chime	Push Button	Junction Box Transformer

BK240SLPB	1	1 Lighted Polished Brass Stucco	1
BK242LWH	1	2 Lighted White	1
BK240LSN	1	1 Lighted Satin Nickel Stucco	1

BUILDER KITS – LINE VOLTAGE DOORBELL

This innovative new builder kit will cut installation time by over 60% (vs. standard builder kits) thanks to a built-in transformer that allows the chime to connect directly to line voltage. A variety of pushbutton options, including a wireless, battery-free option, make this the most versatile doorbell kit on the market. The Line Voltage Doorbell Kit comes pre-loaded with front and rear tones with wired pushbuttons and 8 different tones when paired with wireless pushbuttons. The electronic chime tones offer clean, loud sound quality that can be recognized from anywhere in the home. Choose from 5 kits with chime and pushbuttons included.

DOORBELL ACCESSORIES – TRANSFORMERS

Quick install transformers, built to last. Our transformers feature an easy-to-install lock-mount or wall-mount that can reduce installation time by 25%. A second unique feature for added reassurance is the thermal cut-off switch designed to shut off the doorbell system in the event of excessive temperature.

Transformer C915

16-volt, 10VA transformer for use with most NuTone doorbells. 16-volt, 10VA for a single chime. Fits in standard junction box, run one wire and it's ready for use.

Transformer C909

Tri-volt transformer: 8-volt, 20VA; 16-volt, 20VA; or 24-volt, 20VA for powering multiple doorbells in one home. 8, 16 or 24-volt 20VA for two doorbells.

Transformer C907

16-volt, 30VA transformer for powering multiple doorbells in one home. The most powerful transformer we offer. Ideal for large homes with multiple doorbells. 16-volt 30VA for up to three doorbells.

Transformer C905

16-volt, 10VA transformer for use with most NuTone doorbells. 16-volt 10VA for a single doorbell.

PORTABLE

The art of convenience.

NuTone® makes your life easier. Our portable doorbells can go with you, so visitors won't be missed even when you're out on the deck! Active transmitter pushbutton and receiver chime learn process prevents interference from other wireless products.

Portable Pilot™ Wireless Doorbell LA553WH

Bigger, noisier homes with electronics and surround sound theaters make it harder to hear when a friend is at the door. NuTone brings you the Portable Pilot™ door chime, offering a soft, non-obtrusive design to hang or stand on a flat surface. Select from 8-note Westminster or 15 other pre-programmed sounds. Add more doors with additional NuTone wireless pushbuttons.

Features adjustable volume control. Wireless range 20 to 300 feet

Dimensions: 6" x 7 5/8" x 2 3/4"

Peace & Quiet Simplicity with Function

(Limited Supply Available)

Americana™ Wireless Doorbell LA552RW

Created with inspiration from timepieces, the beautiful Americana door chime brings the charming warmth of wood together with the wireless technology of today. This NuTone chime features wood and brass design simplicity with volume control. Select from 8-note Westminster or 15 other pre-programmed sounds. Add more doors with additional NuTone wireless pushbuttons.

Features adjustable volume control. Wireless range 20 to 300 feet
