DOORBELL CHIME - RING™

Know when a visitor is here, even when your smartphone isn't with you

No phone? No problem! With Chime, you can step away from your smartphone and still know when there is a visitor at the door.

8AC1S5-0EN0

DOORBELL CHIME - RING™

Chime works with your Ring Video Doorbell to alert you when someone is at the door. It plugs into a standard power outlet for your convenience, and you can connect as many Chimes to your Ring Video Doorbell as you need.

You can customize the volume on your Ring app to ensure you will hear the Chime no matter where you are. If there are times, however, when you would prefer to not be disturbed, you can just as easily disable Chime for some peace and quiet.
